

Remarks

The disclosure at the top of page 18 of the specification has been amended to reflect the 65 Experiments in Table 1.

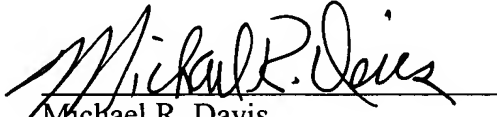

In the originally filed PCT application, as well as in the Preliminary Amendment filed upon entering the U.S. National Phase, claim 1:1 is missing. Accordingly, claims 12-18 in the Preliminary Amendment have been renumbered as claims 11-17, respectively, and the dependencies of these claims have been similarly corrected.

Claim 13 (renumbered as claim 12) refers to formula (IV) for the definition of n, X, R₄, R₅ and R₁₁. Since formula (IV) appears in claim 10, renumbered claim 12 has been amended to recite the definitions for n, X, R₄, R₅ and R₁₁ which are taken from claim 10, on which, along with claims 1-5, claim 13 originally depended.

Respectfully submitted,

Frederic Maurice NAUD et al.
